

# ISARIC HANTAVIRUS CRF

## DESIGN OF THIS CASE REPORT FORM (CRF)

This CRF is set up in modules to be used for recording data on Hantavirus. A template for completion instructions is below. This should be tailored to the objectives of your data collection.

**PRESENTATION FORM:** ALWAYS complete on the first day of presentation/admission/assessment.

**DAILY FORM:** ALWAYS complete on the first day of presentation/admission/assessment

DAILY FORM: IF APPLICABLE, complete on the day of admission to ICU/high dependency unit/critical care (if different date to the date of first presentation/admission)

DAILY FORM: OPTION to complete on days that research specific samples are taken

DAILY FORM: OPTION to complete daily if of interest for specific analysis.

**OUTCOME FORM:** ALWAYS complete at discharge or death or at the end of the study period

Continue to follow-up patients who transfer between wards.

| Forms             | Hospital admission / initial assessment | Admission to ICU (if applicable) | Research sample taken (optional) | As per site protocol (optional) | Discharge / death / end of study |
|-------------------|-----------------------------------------|----------------------------------|----------------------------------|---------------------------------|----------------------------------|
| PRESENTATION FORM | COMPLETE                                |                                  |                                  |                                 |                                  |
| DAILY FORM        | COMPLETE                                | (COMPLETE)                       | (COMPLETE)                       | (COMPLETE)                      |                                  |
| OUTCOME FORM      |                                         |                                  |                                  |                                 | COMPLETE                         |
| FOLLOW-UP FORM    |                                         |                                  |                                  | (COMPLETE)                      |                                  |
| WITHDRAWAL FORM   |                                         |                                  |                                  | (COMPLETE)                      |                                  |

## GENERAL GUIDANCE

- Contact ISARIC Global Support Centre at [data@isaric.org](mailto:data@isaric.org)
  - The CRF is designed to collect data obtained through examination, interview, review of hospital notes, or extraction from electronic health records. Data may be collected prospectively or retrospectively if the patient is enrolled after the date of presentation to a health facility.
  - Please refer to the CRF Completion Guideline for detailed guidance on how to complete these forms.
  - Your institution may capture data:
    - (a) on the ISARIC hosted REDCap database - contact ISARIC for access,
    - (b) to a REDCap database hosted at your institution - contact ISARIC if you would like support to set this up, or
    - (c) on a database or electronic health record system at your institution - contact ISARIC to support data mapping.
  - Participant Identification Numbers consist of a 5-digit site code and a 4-digit participant number.
- Please obtain a site code and register on the data management system by contacting ISARIC. Participant numbers should be assigned sequentially for each site beginning with 0001 or in blocks, possibly including alpha characters, where useful. E.g., Ward X will assign numbers from 0001 or A001 onwards and Ward Y will assign numbers from 5001 or B001 onwards.
- For participants who return for re-admission to the same site, start a new form with a different Participant Identification Number. Please check "YES-admitted previously to this facility" in the RE-ADMISSION section. Enter as 2 separate records if you are using a REDCap (or similar) database.
  - For participants who transfer between two sites that are both collecting data on this form, it is preferred to have the data entered by a single site as a single admission, under the same Participant Identification Number. When this is not possible, the first site should record "Transfer to other facility" as an OUTCOME, and the second site should start a new form with a new patient number and indicate "YES... then transferred to this facility" in the RE-ADMISSION AND PREVIOUS PIN section.
  - Selections with circles (○) are single selection (choose one answer only). Selections with square boxes (□) are multiple selection (choose as many answers as are applicable). Unk = Unknown

## INCLUSION CRITERIA

|                                                                                                                                                                    |                                                                   |

## CONSENT

### CONSENT - As a research professional I certifying that consent has been documented

In all countries of the UK, consent has been obtained for the collection of samples including DNA:

- ☐ Yes  
☐ No  
☐ N/K

Consent options(select all to which the patient agreed):

- ☐ Data and samples may be used for other unrelated ethically approved research in the UK or elsewhere  
☐ Data and samples can be used to manufacture tests, treatments, or other products, including commercial products  
☐ De-identified data and results of analyses, can be shared with other scientists, including those in other countries  
☐ Participant may be contacted by the investigators to be invited to participate in future work, including research studies

## EXPOSURE HISTORY IN PREVIOUS 14 DAYS

Did the patient travel outside of their home region in the past 14 days?

- ☐ Yes  
☐ No  
☐ Unknown

History of contact with suspected or confirmed human case of same pathogen?

- ☐ Yes  
☐ No  
☐ Unknown

If Yes:

Community contact

- ☐ Yes  
☐ No  
☐ Unknown

Healthcare worker exposure

- ☐ Yes  
☐ No  
☐ Unknown

Sexual transmission

- ☐ Yes  
☐ No  
☐ Unknown

Family / household contacts

- ☐ Yes  
☐ No  
☐ Unknown

Date of contact with suspected or confirmed case

[\_D\_][\_D\_][\_M\_][\_M\_]/[\_Y\_][\_Y\_][\_Y\_][\_Y\_]

Contact setting

- ☐ Household  
☐ Occupational  
☐ Healthcare facility  
☐ Unknown  
☐ Other  
 \_\_\_\_\_

## Exposure to confirmed or suspected case on board

Shared cabin with confirmed or suspected case

- ☐ Yes  
☐ No  
☐ Unknown

Shared bathroom facilities with confirmed or suspected case

- ☐ Yes  
☐ No  
☐ Unknown

Shared meals with confirmed or suspected case

- ☐ Yes  
☐ No  
☐ Unknown

Participated in social activities with confirmed or suspected case

- ☐ Yes  
☐ No  
☐ Unknown

Participated in shared shore/off-boat excursions with confirmed or suspected case

- ☐ Yes  
☐ No  
☐ Unknown

Worked or spent prolonged time in the same enclosed area as confirmed or suspected case

- ☐ Yes  
☐ No  
☐ Unknown

Cabin number (if known)

\_\_\_\_\_

Deck/floor of cabin

\_\_\_\_\_

Any unwell household members in the two weeks prior to the admission of case?

- ☐ Yes  
☐ No  
☐ Unknown

If Yes: Which system(s) are affected? (tick all that apply)

- ☐ Respiratory  
☐ Gastrointestinal  
☐ Cardiovascular  
☐ Central Nervous system  
☐ Peripheral Nervous system  
☐ Mucocutaneous  
☐ Ocular  
☐ Unknown  
☐ Other  
 \_\_\_\_\_

Have household members had any contact with a confirmed case of the same infection?

- ☐ Yes  
☐ No  
☐ Unknown

## HANTAVIRUS-SPECIFIC EXPOSURES

Exposure to rodent-contaminated environments before boarding the vessel (e.g. exposure in Argentina, shared visit to rubbish dump for birdwatching, contact with areas potentially contaminated by rodents)

- ☐ Yes  
☐ No  
☐ Unknown

Rodent sighting or exposure on board the vessel

- ☐ Yes  
☐ No  
☐ Unknown

Any contact with animals, animal homes, meats or other animal products in the last 14 days?

- ☐ Yes  
☐ No  
☐ Unknown

If Yes: Date of contact with suspected or confirmed animal source

\_\_\_\_\_

Direct contact with rodents

- ☐ Yes  
☐ No  
☐ Unknown

If Yes:

Rodents type

- ☐ Rats  
☐ Mice  
☐ Squirrels

Specify type of contact

- ☐ Hunting  
☐ Preparing  
☐ Handling  
☐ Consumption (unprocessed / undercooked / raw)  
☐ Trading  
☐ Animal faeces or nests  
☐ Sick or dead animal  
☐ Unknown  
☐ Other

## OTHER ANIMAL EXPOSURES

Contact with wildlife

- ☐ Yes  
☐ No  
☐ Unknown

If Yes:

Wildlife type

- ☐ Bats  
☐ Other

\_\_\_\_\_

Specify type of contact

- ☐ Hunting  
☐ Preparing  
☐ Handling  
☐ Consumption (unprocessed / undercooked / raw)  
☐ Trading  
☐ Animal faeces or nests  
☐ Sick or dead animal  
☐ Unknown  
☐ Other

Any insect or arthropod bites (eg. mosquitoes, ticks)

- ☐ Yes  
☐ No  
☐ Unknown

Other animal contact not listed above

- ☐ Yes  
☐ No  
☐ Unknown

If Yes: Specify animal contacts not listed above

\_\_\_\_\_

## WATER / ENVIRONMENTAL EXPOSURES

Patient swam or bathed in pools, ponds, or rivers

- ☐ Yes  
☐ No  
☐ Unknown

Exposure to flood water/stagnant water bodies or contaminated water

- ☐ Yes  
☐ No  
☐ Unknown

If discharged alive or still hospitalised:  
Ongoing health care needs relating to this admission for pathogen of interest

☐ Yes  
☐ No  
☐ Unknown

If discharged alive or still hospitalised:  
Ongoing health care needs NOT related to pathogen episode

☐ Yes  
☐ No  
☐ Unknown

If Still hospitalised or transfer to other facility: Medically fit for discharge (pathogen resolved) but remains in hospital for other reason (e.g. awaiting alternate care, resident in long term health care or mental health facility)

☐ Yes  
☐ No  
☐ Unknown

If transfer to other facility: is the transfer facility a study site?

☐ Yes  
☐ No  
☐ Unknown

If Yes: What is the Participant Identification Number at the new facility?
